

The Kelley Blue Book Certified Pre-Owned Program is a non-manufacturer certified pre-owned program being offered by Kelley Blue Book and its affiliates. Kelley Blue Book has established the standards that a vehicle must meet to be offered by participating dealers as a Kelley Blue Book Certified Pre-Owned Vehicle. You can find more information about the Program standards and the inspection process at [www.KBBCPO.com](http://www.KBBCPO.com).

Vehicles that meet the standards of Kelley Blue Book Certified Pre-Owned Vehicle Program are offered with a limited powertrain warranty that covers the vehicle until it has 100,000 miles or is 6 years old from the Original In-Service Date\* or registration date, whichever comes first. The warranty includes roadside assistance, towing benefit, trip interruption benefit, and rental car reimbursement. The warranty is underwritten by a third party underwriter and administered by Safe-Guard. In order to meet the standards for the Kelley Blue Book Certified Pre-Owned Vehicle Program, the qualifying vehicles require the following:

- Qualifying vehicles must be current-model or one of the five previous model years and have less than 75,000 odometer miles.
- Kelley Blue Book Certified Pre-Owned Vehicles require a 150+ point quality inspection by the participating dealer signed off by a technician certified by the National Institute for Automotive Service Excellence (ASE)
- Each Kelley Blue Book Certified Pre-Owned Vehicle includes a vehicle history report
- Participating dealers must confirm and certify that the vehicle meets the above requirements before it can be classified as a Kelley Blue Book Certified Pre-Owned Vehicle. The participating dealers are responsible for the inspection and self-certification that the vehicles meet the established standards.

\* **“Original In-Service Date”** means the date the Manufacturer’s Warranty for the vehicle began (as determined by the manufacturer’s records) or the original record of sale/original DMV registration date (as noted on the vehicle history report e.g.: AutoCheck or Carfax).

The participating dealer is responsible for inspecting the vehicle and confirming and certifying to Kelley Blue Book that the vehicle meets the program requirements.

Dealers participating in the Kelley Blue Book Certified Pre-Owned Program must provide reports and other information to Kelley Blue Book and its service providers to verify certain eligibility requirements. Dealer is required to pay a subscription fee for the inspection software and a transaction fee for the warranty and to advertise vehicle as Kelley Blue Book Certified Pre-Owned Vehicle.
